SYMBOLS USED REGULARLY IN CATALOG

The following symbols appearing on revised pages are to be interpreted as follows:

* Indicates Motorcraft Sales Part Number.
\# Indicates some form of identification such as part number, stamping, paint stripes and tags.
★ Symbol indicates part is not supplied for service for the following reasons:

a. Part is superseded and replaced as indicated in the description column of text.
b. Part can be improvised as indicated in the description column of text.
c. Due to its function there would be little or no demand.

NOTE 1 — ALWAYS REFER TO THE DESCRIPTION COLUMN OF THE TEXT FOR POSSIBLE SUBSTITUTION OR FOR MATERIAL SPECIFICATIONS AND DIMENSIONS WHICH MAY BE HELPFUL IN OBTAINING THE NON-SERVICED PART LOCALLY.

NOTE 2 — * Body # Chassis (THESE SYMBOLS APPLY ONLY TO THE VEHICLE AND RELATED CATALOG CODES SHOWN BELOW)

GENERAL INSTRUCTIONS

This catalog contains replacement parts and accessories information for model year 1980/ U.S. and Canadian built vehicles noted above. Unique Canadian part numbers and applications have been identified by a symbol and noted below the group title. Unique U.S. part numbers and applications have been identified by a symbol and noted below the group title. Use this Text Catalog in conjunction with the Illustration Catalog Form FPS 8470/1-B.

Refer to the Index on page 1 for a listing of the items appearing in the General Information Section.

HOW TO USE THIS CATALOG

There are three ways of finding part numbers:

1. By Part Name
2. By Illustration
3. By Identification

Should an inquiry be received for a fuel pump for a 1982 Ford or Mercury with a 351 CID engine.

BY PART NAME

A. Refer to the Chassis Parts Alphabetical Index.

B. Refer to the alphabetical nomenclature and find the part name "Pump assy. (fuel)". The group number listed is 9350.

C. Refer to group number 9350 and locate the year 1982 in the "YEAR" column. Find the vehicle catalog code "A" (for Ford or Mercury) in the "MODEL/RESTRICTIONS" column.

D. The part number shown is E0AZ 9350-C.

HOW TO USE THIS CATALOG – Cont'd

BY ILLUSTRATION

A. Refer to the Illustration Catalog (Form FPS 8470/1–B) to the divider marked "FUEL".

B. Refer to the index immediately behind the divider and find the illustration titles for 1982 A (Ford or Mercury).

C. Under the heading find the "Fuel pump and filter" illustration for the 1982 Ford or Mercury.

D. Refer to the illustration designated (on page 1 of Illustration Section 90.1) and find the group number for the fuel pump assy. to be 9350.

E. Refer to group number 9350 in this Text Catalog and locate 1982 in the "YEAR" column. Find the vehicle catalog code "A" (Ford & Mercury) in the "MODEL/RESTRICTIONS" column.

F. The part number shown is E0AZ 9350–C.

BY IDENTIFICATION

Certain parts and most major assemblies are identified with a part number shown on an attached tag or plate or on the part itself. Reference to identification numbers is made throughout the catalog and cross reference charts are included in some sections to provide immediate knowledge of the service part number when the identification number is known. All identification information other than charts will be preceded by the symbol (#).

IMPORTANT — Identification tags and plates must be retained with the part or assembly with which they are originally supplied.

R.H. and L.H. PARTS

The driver's side is the left hand side of the vehicle and determines whether such parts as fenders, lamps, etc. are right or left hand.

Most Right Hand and Left Hand parts are listed in adjacent columns as shown in the following examples:

YEAR	MODEL/RESTRICTIONS	PART NUMBER	DESCRIPTION	QTY.
81/	A(54,74)	(RH) E1AZ 5420124–A	(LH) E1AZ 5420125–B	1

MOTORCRAFT SALES PART NUMBERS

To facilitate the stocking and handling of those service parts which are assigned both service part numbers and Motorcraft Sales Part Numbers, the Motorcraft Sales Part Numbers are preceded by an asterisk (*) and are usually located at the beginning of the description column.

For example, refer to Section 96, group 9D695. The service part number for a carburetor air cleaner crankcase filter assy. used on a 1980 Ford or Mercury with an 8 cyl. 302 engine is D8AZ 9D695–A and the Motorcraft Sales Part Number is *FA–675. In the catalog this item will be shown as D8AZ–9D695–A *FA–675.

YEAR	MODEL/RESTRICTIONS	ENGINE CYL.	ENGINE C.I.D.	PART NUMBER	DESCRIPTION	QTY.
80	A	8	All	D8AZ 9D695–A	*FA–675	1

CANADIAN/U.S. BUILT VEHICLES

For vehicles licensed and sold in **Canada** use the Part Number indicated for Canada. Example:

83	P – – Canada	6	200	E3BZ 9600–B	D4ZZ 9601–AR *FA–584–R	

For vehicles licensed and sold in the **U.S.** use the Part Number indicated exc. Canada. Example:

83	P – – exc. Canada	6	200	E3BZ 9600–A	D4ZZ 9601–AR *FA–584–R

FORMATS

Various formats are used throughout this catalog to coincide with the normal procedure for selecting the affected part numbers. Most areas of the catalog use a format arranged in the order shown below:
Column —
1. Model year
2. Type of vehicle or equipment within a specific model year
3. Complete part number
4. Description, size, etc.
5. Quantity required per vehicle

Formats peculiar to a particular area of the catalog are generally self explanatory. When necessary, instructions are shown at the beginning of the affected group. For instance, the various charts and parts list method of cataloging in the Carburetor Section are explained on Page 1 of Section 95.

EXHAUST SYSTEMS CERTIFICATION

"For their intended application as specified in this catalog, the exhaust system parts and systems listed for sale have been certified to be in compliance with the requirements of the rules of the Florida Department of Environmental Regulation (Chapter 17—18, Part III of the Florida Administrative Code), and the regulations of the California Highway Patrol (Chapter 2, Part 1052) for exhaust system certification."

FOOTNOTES

Various explanations of symbols, codes, etc., which formerly appeared as footnotes at the bottom of the affected pages are now noted immediately below the group title or name of the affected item.

EXPLANATION OF THE FORD PART NUMBERING SYSTEM

For greater convenience this catalog is divided into specific sections; such as brakes, front suspension, engine, transmission, etc. For example, FRONT SUSPENSION appears in Section 30, Transmission in Section 70, REAR AXLE in Section 40, etc. The applicable exploded illustrations are contained in separate sections which are related to the Text Section numbers. For example, REAR AXLE Illustrations appear in Illustration Section 40 of the Illustration Catalog, Form FPS 8470/1—B.

The part number groups, part names and the section numbers under which each is listed are shown on pages 5 thru 10 of the General Information Section.

In numerical listings, expanded group numbers will be considered to follow the same sequence as the regular group numbers from which they are expanded and are arranged in Catalogs as follows:

3538
3C538
3634
3A634

Illustrations contain group numbers only, therefore, it is necessary to refer to the group within this "text" catalog for complete applicable part numbers.

BODY PARTS GROUP NUMBERING SYSTEM

FOLLOWING IS A DIAGRAM OF THE BODY PARTS GROUP NUMBERING SYSTEM

● BODY GROUP

BODY TYPE — CHANGE IN DESIGN OR COLOR

54 20124—A

54 — 4 DOOR SEDAN
66 — 2 DOOR SEDAN

DOOR ASSY. (FRONT) — R.H.

● These five digits comprise the Body Group Numbers used throughout each body parts section.

PART NAME INDEX

Below are various major groups appearing in the Chassis and Body Sections of this Catalog. An Alphabetical Index for all chassis parts follows the General Information Section. A complete index of body parts is included at the beginning of the Body Section and a complete group index of Soft Trim parts is included at the beginning of the Soft Trim Section.

40000 — 49999	Transfers and exterior mouldings	Exterior Moulding
40000 — 49999	Exterior moulding retainers	Exterior Moulding Section "R"
50000 — 50999	Roof panel and folding top mechanism	500
51000 — 51999	Roof rails, weatherstrips and console	500
52000 — 52999	Roof bows and supports	500
53000 — 59999	Folding top mechanism and luggage carrier parts	500
50000 — 59999	Exterior mouldings	Exterior Moulding
50000 — 59999	Exterior moulding retainer	Exterior Moulding Section "R"
60000 — 60999	Seats, hinges and supports	600
61000 — 61499	Seats, head rest parts and seat belts	600
61500 — 61699	Seat side shields	600
61700 — 61999	Seat tracks and mechanism	600
62000 — 69999	Seat side shields and ash receptacles	600
00000 — 69999 (as applicable)	Soft Trim	Soft Trim — by model year

MODEL YEAR APPLICATION

Model year application is indicated by showing the first year followed by a diagonal line to indicate continued usage in all subsequent years until the insertion of the last year of usage, which will then be shown after the diagonal line. If no diagonal line is shown, the part is applicable only to the year shown.

Example:

80 Indicates part used 1980 model year only.
80/ Indicates part used 1980 through subsequent model years.
80/81 Indicates part used 1980 through 1981 model years.

BODY TYPE CODES

Most body parts and some chassis parts are cataloged by Body Type Codes. A complete listing of body type codes is shown on pages 29,30 of this section. Similar body types are identified by the same code number. The body type suffix is used to identify a particular body type. For example, (Ford or Mercury) body type 54 is used as shown below:

A (54H) LTD S or Marquis 4 Door Pillared Hardtop
A (54K) LTD or Marquis Brougham 4 Door Pillared Hardtop
A (54L) LTD Crown Victoria or Grand Marquis 4 Door Pillared Hardtop

Body type codes (less suffix) are shown in the model column of the catalog text or with illustration titles when all body types of a related group are affected. For example, when Body Type Code 54 is shown it includes 54H, 54K and 54L.

SOFT TRIM

Soft Trim parts are arranged in separate sections by car line catalog code within each model year, i.e. 1980 Soft Trim Section A (Ford or Mercury). To determine the complete part number of a trim part, it is necessary to know the "Trim Code" which is shown on the Certification Label of the vehicle (refer to pages 22 thru 35). Instructions for selecting soft trim parts are contained at the beginning of the Soft Trim area of this catalog.

ATTACHING PARTS (NUTS, BOLTS, ETC.) and LOCATOR CODES

Standard and utility hardware, such as bolts, screws, fittings, etc. are listed below the part with which they are used. To facilitate the stocking and handling of standard and utility parts by Ford or L–M Dealers, locator codes are preassigned by Ford Motor Company. The locator codes are shown in parentheses immediately following or below the standard and utility part numbers. For example, refer to Body Section 200 group 22800–1. The part number for a 5/18"–18 x 1 1/8" screw–hex. head is 382623–S2 with the locator code (UU–52–AL) appearing at the beginning of the description column. In some charts, such as the Carburetor Parts List Charts in Section 95.1, 95.2, etc. the locator code will be shown next to or below the part number in the part number column.

LIQUID MEASURE

Most liquid measures listed in this catalog are in U.S. sizes and certain other liquid measure (unique to Canada) listed in this catalog are in Canadian sizes. The follow chart provides an understanding and a translation of U.S. to Canadian and Canadian to U.S. sizes.

	1/2 Pint	Pint	Quart	Gallon
	(CAPACITY IN OUNCES)		(CAPACITY IN OUNCES)	
Canada	10	20	40	160
U.S.	8	16	32	128

Example. 5 U.S. quarts (160 ounces) equal 4 Canadian quarts (160 ounces) or 1 Canadian gallon.

D.S.O., F.S.O. or L.P.O. (SPECIAL ORDERS)

The District Code Number will appear in the D.S.O. space on the Certification Label for all units including regular production. Always furnish appropriate Certification Label information and D.S.O. Number, if applicable, when ordering parts not listed in the catalog. If the unit is D.S.O., F.S.O. or L.P.O. (Special Order), the complete Order Number will appear in the D.S.O. space in addition to the District Code Number.

IMPORTANT — Many parts and assemblies used on Domestic Special Order vehicles may be standard or optional on other models. When the assembly number is known check the applicable identification and cross reference charts for possible service parts. If not listed in this catalog order the part on a Special Order basis through the Order Processing Center.

HOW TO IDENTIFY 351 C.I.D. ENGINES

The following methods will help to identify the subject engines that are in use:

- Decal on Air Cleaner Cover
- Emission Control Systems Decal on Valve Cover
- 351C was last produced in 1974
- 351M introduced in 1975 and used thru 1979.
- 351W introduced in 1969 in use through 1981.

ITEM	351W	351C & M
Number of bolts attaching valve cover on exhaust manifold side	3	4
Type of Front Cover	Bolted to Cylinder Block	Cast as part of Cylinder Block
Thermostat Housing	Bolts horizontal and mounts to intake manifold	Bolts vertical and mounts to front cover
Fuel Pump	Attaching Bolts side by side (horizontal plane)	Attaching Bolts one above the other (vertical plane)

HOW TO ORDER PARTS

When ordering parts, always give the complete part number.

In the event the part number is not known, the following information should be included:

A. Complete description of part.

B. Model, year and body type.

C. Dimension, number of teeth, size, etc., if possible, rough sketch of part.

D. If applicable to engine, transmission, axle, steering, etc., specify type, such as 302 C.I.D. Automatic Transmission, Power Steering, etc.

E. Advise how shipment is to be made — Freight, Express, Air, Parcel Post.

ACCESSORY WEIGHT CHARTS

When adding accessories to your vehicle, the total weight capacity of the vehicle or of the front or rear axle (GVWR, GAWR as shown on the Vehicle Certification Label) must not be exceeded. See the listing below for the weight effect of the various accessories shown.

1980 VEHICLES

ACCESSORY	WEIGHT EFFECT (lbs.) TOTAL	FRONT AXLE	REAR AXLE

CERTIFICATION LABEL — TYPICAL

(Refer to Pages 27 thru 53 for CERTIFICATION LABEL)

Located on the latch face of the left Front Door.

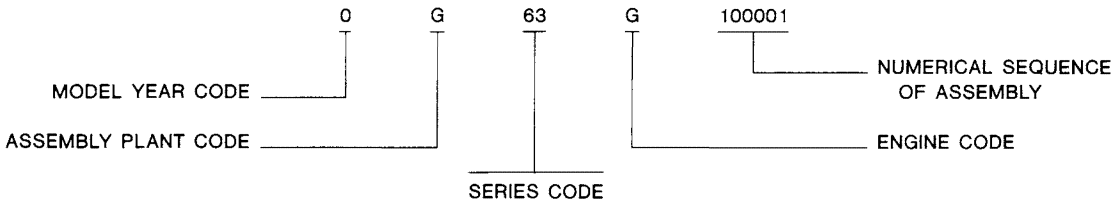

The Certification Label includes:

1. Built date (e.g. 10/80) in upper left hand corner which indicates the month and year in which the unit was built.
2. Vehicle Identification Number (left half of first line) consisting of Codes which identify Model Year, Assembly Plant, Series, Engine and Numerical Sequence of Assembly (also shown in upper right hand corner).
3. Vehicle Identification Number consisting of Codes which identify Model Year Code, Assembly Plant Code, Series Code, Engine Code and Numerical Sequence of Assembly.
4. Certification Label consisting of Codes which identify Body Color Code, District Codes (D.S.O. Number where applicable), Body Type Code, Vinyl Roof Code, Bodyside Moulding Code, Trim Code, Air Conditioning Code, Radio Code, Sun/Moon Roof Code, Rear Axle Ratio Code, Transmission Code and Front—Rear Spring Code.

The codes shown below are listed on pages 23 thru 26.

1980

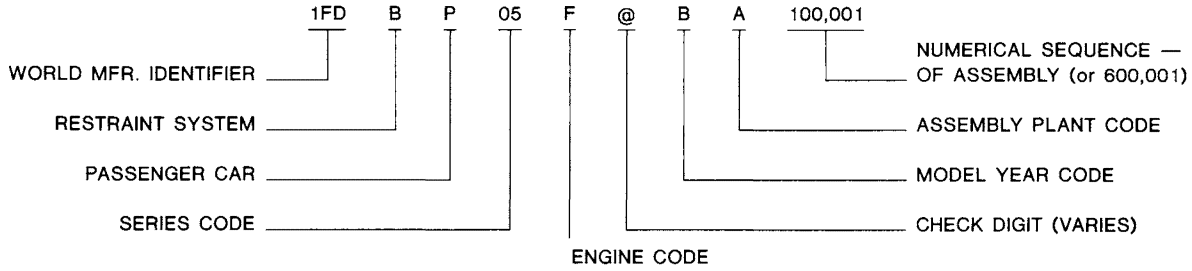

FIRST LINE (0G63G100001) VEHICLE IDENTIFICATION NUMBER

"0" — 1980 Model Year
"G" — Assembled at Chicago Assembly Plant
"63" — LTD 4 Door Pillared Hardtop or Marquis Brougham 2 Door Sedan
"G" — 8 Cyl. 351—2/B engine
"100001" — First Ford Series Vehicle assembled during Model Year.
"10/79" — Built during October, 1979

1981/

FIRST LINE (1FDBP05F@BA 100,001) VEHICLE IDENTIFICATION NUMBER

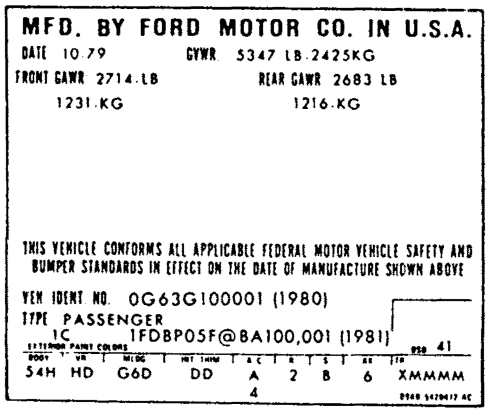

"1FD" — Manufactured by Ford Motor Co., U.S.A., as an incomplete vehicle
"B" — Active Belts
"P" — "P" (Passenger Car only)
"05" — Escort or Lynx—3 Door Sedan Hatchback
"F" — 8 cyl. 302 (5.0 litre) 2/B Engine
"@" — Check Digit (internal usage)
"B" — Model Year 1981
"A" — Assembly Plant — Atlanta
"100,001" — First Unit Built (Escort)
"600,001" — First Unit Built (Lynx)

SECOND LINE (54H HD G6D DD A 2 B 6 X MMMM) MISCELLANEOUS VEHICLE DATA

"1C" — Black
"54H" — LTD 4 Door Pillared Hardtop, or Marquis 4 Door Sedan
"HD" — Grande Full — Red
"G6D" — Medium Red Metallic
"DD" — Ford or Mercury—B/cloth & vinyl—L/B Split Bench—Dark Red
"A" — A/C Installed (Before 1/83)
"4" — Tape stripe color (From 1/83)
"2" — Am Radio
"B" — Sunroof Glass
"6" — Rear Axle Ratio of 3.00 to 1 (non—locking)
"X" — Cruise—O—Matic (FMX)
"MMMM" — Springs — left front, right front, left rear, right rear
"41" — Chicago District

CERTIFICATION LABEL — TYPICAL — Cont'd

PRODUCTION EFFECTIVE DATES

Catalog Reference

The preferred method for identifying replacement parts for identical application is to utilize physical differences between the parts, which are oftentimes denoted in the catalog under the description column. Occasionally it is necessary to reference the vehicle build date to determine which replacement part to order. The dates are shown in the text as "BEFORE" and "FROM" a specific date. The date shown in the catalog is the earliest tentative production incorporation date and therefore is subject to change. It is also possible that a production change which is effective at more than one assembly plant may be incorporated on different dates. For these reasons the productions effective date shown in the catalog should be considered as an approximate date.

Vehicle Reference

There are three principal methods for determining the vehicle build date: 1. the yellow date stamp on the radiator support. 2. the date on the Vehicle Certification Label and 3. the date code on the Owners Card. It is preferable to reference the yellow ink stamp date, as the other two dates are tentative scheduled off–line dates. The locations and codes for these dates are shown below:

1. Location of Vehicle Build Date Stamp

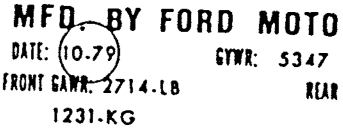

Top of radiator support assembly plants use a 4 digit number to indicate the month and day of build.

Example —

Actual Calendar Date of Build	Date Stamp On Unit
January 24	0124
October 21	1021

2. Certification Label

The month code is shown on the Certification Label in the upper left hand corner (e.g. 10/79 indicates October, 1979).

3. Owner Card

The month and day of manufacture is shown on the owner card. The numerical portion identifies the day and the alphabetical portion identifies the month. The month codes are listed in the following chart together with the month which they represent.

CODE	MONTH – FIRST YEAR	CODE	MONTH – FIRST YEAR	CODE	MONTH – SECOND YEAR	CODE	MONTH – SECOND YEAR
A	January	G	July	N	January	U	July
B	February	H	August	P	February	V	August
C	March	J	September	Q	March	W	September
D	April	K	October	R	April	X	October
E	May	L	November	S	May	Y	November

CERTIFICATION LABEL

YEAR CODES

1980

VEHICLE IDENTIFICATION NUMBER 0 G63G100,001

THE FIRST DIGIT OF THE VEHICLE IDENTIFICATION NUMBER IDENTIFIES THE MODEL YEAR OF THE VEHICLE.

1981/

VEHICLE IDENTIFICATION NUMBER 1FDBP05F@ B A100,001

THE TENTH DIGIT OF THE VEHICLE IDENTIFICATION NUMBER IDENTIFIES THE MODEL YEAR OF THE VEHICLE.

THE FOLLOWING CHART LISTS THESE CODES AND THE CORRESPONDING MODEL YEAR.

Code – 0 or A	Year – 1980	Code – F	Year – 1985
Code – B	Year – 1981	Code – G	Year – 1986
Code – C	Year – 1982	Code – H	Year – 1987
Code – D	Year – 1983	Code – J	Year – 1988
Code – E	Year – 1984	Code – K	Year – 1989

ASSEMBLY PLANT CODES — PASSENGER CAR

1980

VEHICLE IDENTIFICATION NUMBER 0 G 63G100,001

THE SECOND DIGIT OF THE VEHICLE IDENTIFICATION NUMBER INDICATES THE PLANT AT WHICH THE VEHICLE WAS ASSEMBLED.

1981/

VEHICLE IDENTIFICATION NUMBER 1FDBP05F@B A 100,001

THE ELEVENTH DIGIT OF THE VEHICLE IDENTIFICATION NUMBER INDICATES THE PLANT AT WHICH THE VEHICLE WAS ASSEMBLED.

CODE	ASSEMBLY PLANT	CODE	ASSEMBLY PLANT	CODE	ASSEMBLY PLANT	CODE	ASSEMBLY PLANT
A	Atlanta	H	Lorain	R	San Jose	X	St. Thomas
B	Oakville	J	Los Angeles		Hermosillo, Mexico	Y	Wixom

CERTIFICATION LABEL — Cont'd

VINYL ROOF TYPE and COLOR IDENTIFICATION

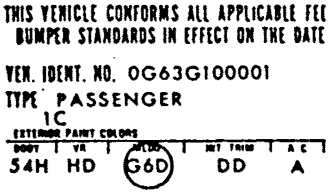

CERTIFICATION LABEL SHOWN

A CODE (TWO DIGITS) IDENTIFYING THE ROOF STYLE AND TYPE OF GRAIN (FIRST POSITION) AND THE COLOR (SECOND POSITION). REFER TO THE APPROPRIATE SOFT TRIM SECTION FOR A LISTING AND DESCRIPTION OF THE VINYL ROOF COVER CODES.

VINYL BODYSIDE MOULDING CODES

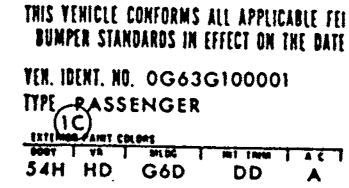

CERTIFICATION LABEL SHOWN

A CODE (THREE DIGITS) WHICH IDENTIFIES THE VINYL BODYSIDE MOULDING COLOR. REFER TO THE EXTERIOR MOULDING SECTION WHERE THE APPROPRIATE CODE IS LISTED WITH THE PART NUMBER OF THE BODYSIDE MOULDING IT REPRESENTS.

COLOR CODES – EXTERIOR PAINT

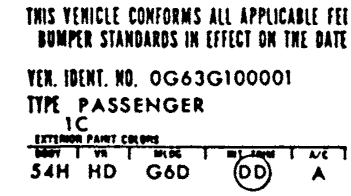

CERTIFICATION LABEL SHOWN

THE CODE ABOVE OR BELOW "COLOR" INDICATES THE EXTERIOR PAINT COLOR OF THE VEHICLE REFER TO THE PAINT SECTION FOR A LISTING OF THESE CODES AND THE PART NUMBER OF THE REQUIRED PAINT.

TRIM CODES

CERTIFICATION LABEL SHOWN

TWO CODE COMBINATION REPRESENTING THE SEAT TYPE AND COLOR OF INTERIOR TRIM SCHEME.

REFER TO THE APPROPRIATE SOFT TRIM SECTION FOR A LISTING OF THESE CODES AND THE COLOR AND TYPE OF MATERIALS USED IN THE INTERIOR UPHOLSTERY. REFER TO THE PAINT SECTION FOR A LISTING OF THESE CODES AND THE PART NUMBER FOR THE REQUIRED PAINT.

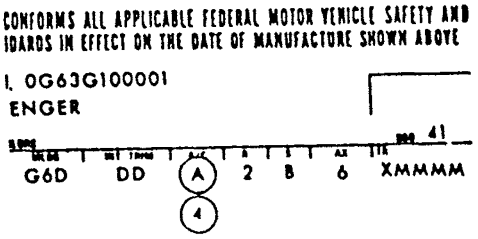

CERTIFICATION LABEL — Cont'd

AIR CONDITIONER CODE (BEFORE 1/83)

TAPE STRIPE COLOR CODE (FROM 1/83)

A — FORD FACTORY INSTALLED (INTEGRAL) AIR CONDITIONING
BLANK — UNIT BUILT AND DELIVERED LESS FACTORY INSTALLED (INTEGRAL) AIR CONDITIONING.

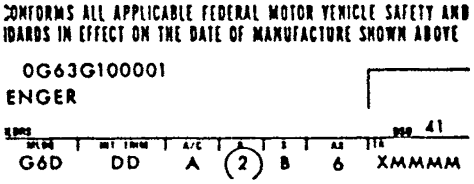

4 — REFER TO EXTERIOR MOULDING SECTION WHERE THE APPROPRIATE CODE IS LISTED WITH THE PART NUMBER OF THE TAPE STRIPE IT REPRESENTS.

CERTIFICATION LABEL SHOWN

RADIO TYPE CODES

THE CODE SHOWN BELOW IDENTIFIES THE TYPE OF RADIO AND WHETHER OR NOT THE VEHICLE IS ALSO EQUIPPED WITH C.B. RADIO OPTION.

CERTIFICATION LABEL SHOWN

ENGINE ASSEMBLY PLANT CODES

The Code shown below is shown only on the engine identification tag — Refer to Section 60 for complete information.

ENGINE CODE	ENGINE PLANT	ENGINE CODE	ENGINE PLANT
C	Cleveland	M	Cleveland
E	Ensite — Canada	W	Windsor

FIESTA VEHICLE IDENTIFICATION PLATE

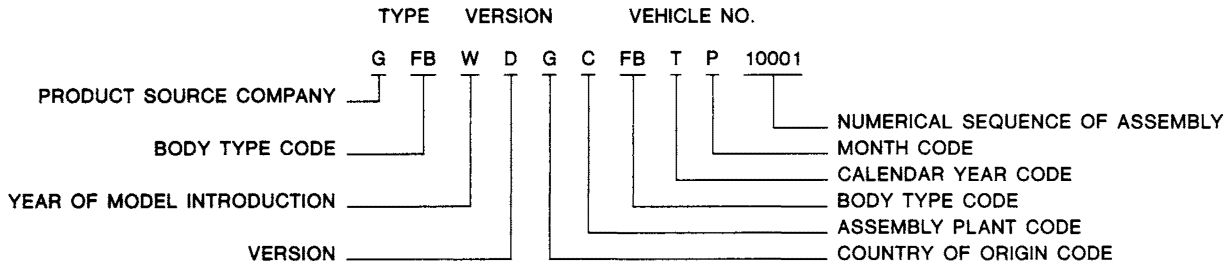

Located on the right hand fender apron/or firewall

The Vehicle Identification Plate includes —

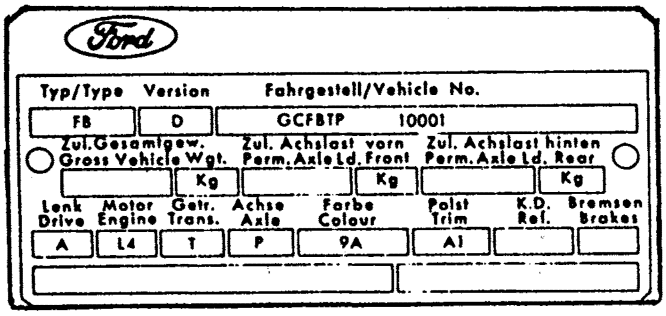

1. The (First Line) consists of codes which identify Product Source Company, Body Type Code, Year of Model Introduction, Version, Country of Origin Code, Assembly Plant Code, Body Type Code, Calendar Year Code, Month Code and Numerical Sequence of Assembly.

2. The (Second Line) consists of Codes which identify Drive Code, Engine Code, Transmission Code, Axle Ratio Code, Color Code (Exterior Paint) and Trim Code.

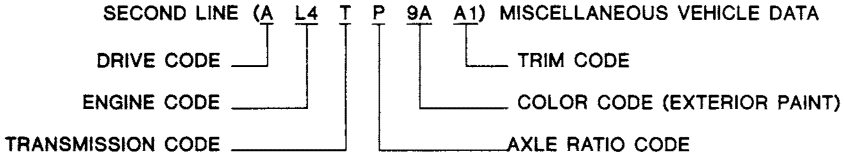

Refer to Pages 36 and 37 for complete listing of Codes.

FB — 3 Door Hatchback
G — Germany
C — Assembled at Saarlouis
W — W—1979 (Calendar Year)
P — Month Code
10001 — Numerical Sequence of Assembly

SECOND LINE (A L4 T P 9A A1) MISCELLANEOUS VEHICLE DATA

A — Left Hand Drive
L4 — 1.6 Litre
T — 4 Speed Manual
P — Axle Ratio of 3.58 to 1
9A — Yellow (9) with Black Vinyl Roof (A)
A1 — Black (A) with Cloth/Vinyl (1)

FIESTA VEHICLE IDENTIFICATION PLATE — Cont'd

DRIVE CODES

A — Left Hand Drive

YEAR of MODEL INTRODUCTION

W — 1979: For Model Year 1980

CATALOG MODEL YEAR CODES

The vehicle model year as shown in this catalog is to be determined from the Build Date indicated below:

MODEL YEAR	*BUILD DATE FROM	TO
1980	10/79	

*Build Date is identified on Warranty Plate as Calendar Year Code and Month Code. These codes are explained on the next page.

ENGINE CODES

L4 — (1.6 Litre)

TRANSMISSION CODES

T — 4 Speed Manual Transmission

AXLE RATIO CODES

P — 3.58 to 1

COLOR CODES (EXTERIOR PAINT)

Single digit code indicates solid color. Two digit code indicates solid color with vinyl roof cover. For a listing of these codes and the part number of the required paint refer to Paint Section.

TRIM CODES

First digit indicates color . . . Second digit indicates type of fabric

Refer to the appropriate Soft Trim Section for a listing of these codes and the color and type of materials used in the Interior Upholstery.

COUNTRY of ORIGIN CODES

G — Germany

ASSEMBLY PLANT CODES

C — Saarlouis

FIESTA VEHICLE IDENTIFICATION PLATE — Cont'd

VERSION

D — 64D (Decor 3 Door Sedan)
P — 64P (Ghia 3 Door Sedan)
R — 64R (Sport 3 Door Sedan)
S — 64S (3 Door Sedan)

BODY TYPE CODES

FB — 3 Door Hatchback

CALENDAR YEAR CODES

(First Digit of Date Code)

W — 1979
A — 1980

MONTH CODES

(Second Digit of Date Code)

MONTH CODE	1979 CALENDAR YEAR CODE W	1980 CALENDAR YEAR CODE A	MONTH CODE	1979 CALENDAR YEAR CODE W	1980 CALENDAR YEAR CODE A	MONTH CODE	1979 CALENDAR YEAR CODE W	1980 CALENDAR YEAR CODE A

CERTIFICATION LABEL — MERKUR (XR4Ti), SCORPIO

The Certification Label includes:

1. Build date (e.g. 10/80) in upper left hand corner which indicates the month and year in which the unit was built.
2. Vehicle Identification Number (left half of first line) consisting of Codes which identify Model Year, Assembly Plant, Series, Engine and Numerical Sequence of Assembly (also shown in upper right hand corner).
3. Vehicle Identification Number consisting of Codes which identify Model Year Code, Assembly Plant Code, Series Code, Engine Code and Numerical Sequence of Assembly.
4. Certification Label consisting of Codes which identify Body Color Code, District Codes (D.S.O. Number where applicable), Body Type Code, Vinyl Roof Code, Bodyside Moulding Code, Trim Code, Air Conditioning Code, Radio Code, Sun/Moon Roof Code, Rear Axle Ratio Code, Transmission Code and Front—Rear Spring Code.

1981/

FIRST LINE VEHICLE IDENTIFICATION NUMBER

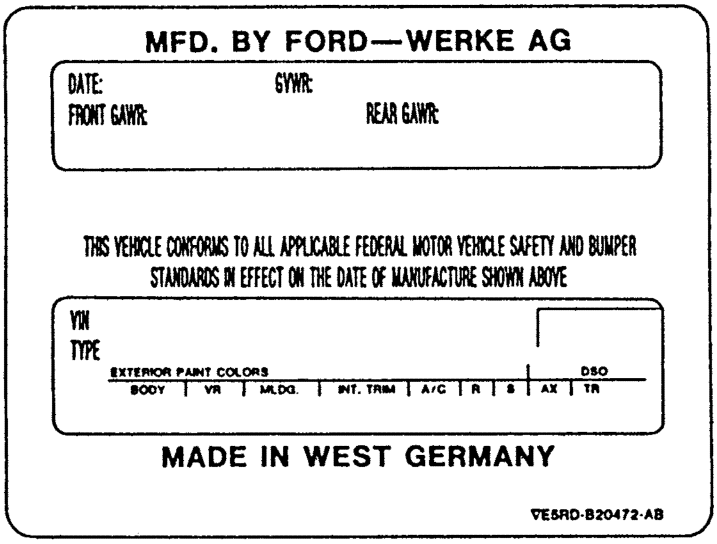

"WF1" — Manufactured by Ford — Werke, A. G., West Germany
"B" — Active Belts
"P" — "P" (Passenger Car Only)
"80" — Merkur XR4Ti — 3 Door Hatchback
"W" — 2.3 EFI TC, (140 CID), I—4 cyl., gas
"@" — Check Digit (internal usage)
"F" — Model Year 1985
"M" — Karmann Assembly Plant — Rheine, West Germany
"600,001" — First Unit Built

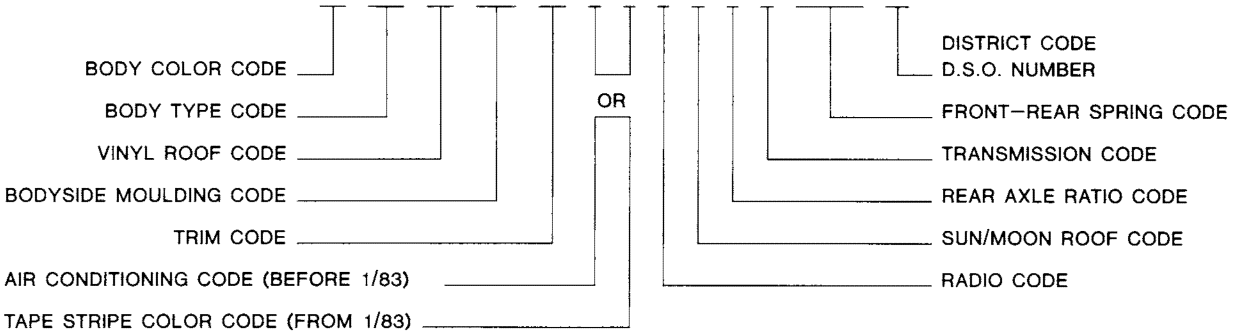

CERTIFICATION LABEL — MERKUR

LIQUID MEASURE

Most liquid measures listed in this catalog are in U.S. sizes; however, those measures which are specified for unique Canadian parts are in Imperial or Metric sizes.

The capacity in ounces and litres for both U.S. and Imperial, measures are specified below:

	1/2 PT.	PINT	QUART	GALLON
Imperial	10 oz. (284.1 ml)	20 oz. (568.2 ml)	40 oz. (1.136 l)	160 oz. (4.55 l)
U.S.	8 oz. (236.6 ml)	16 oz. (473.1 ml)	32 oz. (.946 l)	128 oz. (3.78 l)

EXTERIOR PAINT COLORS DSO

BODY	VR	MLDG.	INT. TRIM	A/C	R	S	AX	TR

[2]

1. Exterior paint coding
2. Interior trim code

EXTERIOR PAINT IDENTIFICATION

The 18 spaces, grouped in three sets of six each, provides for identification of up to three exterior colors on a vehicle. For vehicles (except Special Order) the major body color exterior paint code will be shown in the spaces to the left of the first set. On a tu-tone vehicle the secondary color will be listed in the second set. The third set will be used to identify the minor paint code on a vehicle using three exterior colors. See example A. Special order vehicles using M, WT or MX paint codes will have the entire number printed in the available spaces (with the exception of MX numbers). The prefix MX70 is simply reduced to X. See examples B, C and D.

Example A: Regular Production

9	A					1	C										
(Body Color)						(Tu-Tone Color)						(Accent Color)					

Example B: M numbers

M	1	3	2	6	A	M	1	5	2	4	A	M	1	7	2	4	H

Example C: WT numbers

W	T	2	0	0	7	W	T	4	0	4	0	W	T	8	3	0	6

Example D: MX numbers

X	0	1	4	0	6	X	4	1	4	0	6	X	0	1	3	9	5

INTERIOR TRIM CODES

The first digit of the interior trim code denotes type of fabric and seat type. The second digit identifies the color.

DESCRIPTION	PART NUMBER	DESCRIPTION	PART NUMBER
P0000 SEALERS and UNDERCOATS - PAINTS, THINNERS, ETC. U.S. and CANADIAN USAGE			
Primer/Filler-exterior--5 oz. aerosol spray-not available in Canada	**AL81 1000-H**	Plastic Primer-for polypropylene interior parts- 12 oz. aerosol can	**E8AZ 19000-A**

MASTER PARTS AND ACCESSORIES CATALOG

FORD PARTS AND SERVICE DIVISION
FORM FPS 8470-1-B

GENERAL INSTRUCTIONS

This Ford/Lincoln Mercury Master Parts Catalog contains parts illustrations for A (Ford), B (Tempo), C (EXP), D (Lincoln), E (Taurus), F (Mustang), G (LTD), G (Granada), J (Capri), K (Mark VI), K (Mark VII), L (Pinto), P (Fairmont), $ (Thunderbird), W (Escort), W (EXP—B/T 67), X (Fiesta), BT (Festiva), DC (Continental), DT (Lincoln Town Car), MA (Mercury), MB (Topaz), MC (LN7), ME (Sable), MF (Cougar), MG (Monarch), MG (Marquis), ML (Bobcat), MM (Tracer), MP (Zephyr), MV (Versailles), MW (Lynx), MX (Merkur XR4Ti), MY (Scorpio) and ST (Probe) for model years 1980/ for U.S. and Canadian built vehicles.

Use this illustration catalog in conjunction with the text catalog. Form FPS 8470-A (Ford) and FPS 8471-A (Lincoln Mercury).

For greater convenience this catalog is divided into specific sections, such as brakes, front suspension, engine, transmission, etc. For example, FRONT SUSPENSION appears in Section 30, STEERING in Section 35, Rear Axle in Section 40, etc.

A separate catalog which contains the text or descriptive information for the same model years is available as Form FPS 8470-A (Ford) and FPS 8471-A (Lincoln Mercury). The text catalog is divided into sections also and like parts are shown under similar section numbers in both the text and illustration catalogs.

A listing of Ford/Lincoln Mercury group numbers and their related section numbers appears in the General Information Section of the text catalog, Form FPS 8470-A (Ford) and FPS 8471-A (Lincoln Mercury).

Illustrations contain basic group numbers only, therefore, it is necessary to refer to the basic group within the text catalog listing for complete applicable part number.

Please Note:

Illustrations shown per this publication are to be used for text part number basic identification only.

The various parts illustrated in this publication (FPS 8470-1-B) are drawn for multiple vehicle applications and therefore "typical" to the actual part(s) they represent. Consequently, exact detail, measurements and configurations of the actual part cannot be shown for each illustration printed.

Refer to the various SHOP MANUAL type of publications for part removal, specifications, torque and replacement procedures.

The driver's side is the left hand side of the vehicle and determines whether such parts as fenders, lamps, etc. are right or left hand.

Model year application is indicated by showing the first year followed by a diagonal line to indicate continued usage in all subsequent years until the insertion of the last year of usage, which is shown after the diagonal line. If no diagonal line is shown, the part is applicable only to the year shown.

Example —

80/ indicates part used 1980 through subsequent model years.
80/81 indicates part used 1980 through 1981 model years.
80 indicates part used 1980 model year only.

For Certification Label Data, Catalog Model Codes and Body Type Codes refer to the General Information Section of the Text Catalog, Form FPS 8470-A (Ford) and FPS 8471-A (Lincoln Mercury).

MASTER PARTS AND ACCESSORIES CATALOG

FORD PARTS AND SERVICE DIVISION

FORM FPS 8470-1-B

GENERAL INSTRUCTIONS

The various car lines and their body types are identified by vehicle catalog codes and body type codes in the text catalog as follows:

CATALOG CODE	YEAR	VEHICLE	OTHER COMMON SYMBOLS	
A	1980/	Ford		
B	1984/	Tempo		
C	1982/85	EXP	★ Indicates Not Serviced — must be improvised or procured locally	
D	1980/81	Lincoln		
E	1986/	Taurus	BODY TYPE DESCRIPTION	BODY TYPE CODE
F	1980/	Mustang	Five door sedan	58
G	1983/86	LTD		
G	1980/82	Granada	Four door sedan	54
J	1980/86	Capri	Four door station wagon	74
K	1980/83	Mark VI		
K	1984/	Mark VII	Three door fastback	61
L	1980	Pinto	Three door sedan	64
P	1980/83	Fairmont	Three door hatchback coupe	67
S	1980/	Thunderbird		
W	1981/	Escort	Two door hardtop (formal roof)	65
W (B/T 67)	1986/88	EXP	Two door pillared hardtop	66
X	1980	Fiesta	Two door sedan	62
BT	1988/	Festiva	Two door sedan	63
DC	1982/	Continental	Two door sporty coupe	36
DT	1982/	Lincoln Town Car	Two door station wagon	73
MA	1980/	Mercury		
MB	1984/	Topaz		
MC	1982/83	LN7		
ME	1986/	Sable		
MF	1980/	Cougar		
MG	1980	Monarch		
MG	1983/86	Marquis		
ML	1980	Bobcat		
MM	1987/	Tracer		
MP	1980/83	Zephyr		
MV	1980	Versailles

Tailgate	Back, Luggage Compartment	400
Track (Front Seat)	Seat	600
Vent System	Body Front, Floor	000
Windshield	Body Front, Floor	000

PROCEDURE FOR USING CATALOG

There are three ways of finding part numbers:

1. By Part Name
2. By Illustration
3. By Identification

Should an inquiry be received for a radiator grille for a 1983 Ford Escort or Mercury Lynx.

BY PART NAME

A. Refer to the Chassis Alphabetical Index in the Text Catalog (Form FPS 8470-A (Ford) and FPS 8471-A (Lincoln Mercury)
B. Refer to the alphabetical nomenclature and find the part name "Grille (Radiator)". The group number listed is 8200.
C. Refer to group number 8200 and locate the year 1983 in the "YEAR" column. Find the vehicle catalog code "W" (for Ford Escort or Mercury Lynx) in the "MODEL/RESTRICTIONS" column.
D. The part number shown is E3YY-8200-A (Argent & Chrome) or E3YY-8200-B (Black)

BY ILLUSTRATION

A. Refer to this Illustration Catalog to the divider marked "Cooling-Grille".
B. Refer to the index immediately behind the divider and find the 1983 illustration indexes.
C. Under the heading W (Escort) & MW (Lynx) look for "Radiator Grille".
D. Refer to the illustration designated (on page 10 of illustration Section 82) and find the group number for the Radiator Grille to be 8200.
E. Refer to group number 8200 in the Text Catalog (Form FPS 8470-A (Ford) and FPS 8471-A (Lincoln Mercury) and locate 1983 in the "YEAR" column. Find the vehicle catalog code "W" (for Ford Escort) or "MW" (for Mercury Lynx) in the "MODEL/RESTRICTIONS" column.
F. The part number shown is E3YY-8200-A (Argent & Chrome) or E3YY-8200-B (Black).

BY IDENTIFICATION

Certain parts and most major assemblies are identified with a part number shown on an attached tag or plate or on the part itself. Reference to identification numbers is made throughout the catalog and cross reference charts are included in some sections to provide immediate knowledge of the service part number when the identification number is known.

IMPORTANT — Identification tags and plates must be retained with the part or assembly with which they are originally supplied.

HOW TO ORDER PARTS

When ordering parts, always give the complete part number.
In the event the part number is not known, the following information should be included:

A. Complete description of part.
B. Model year and body type.
C. Dimension, number of teeth, size, etc., if possible rough sketch of part.
D. If applicable to engine, transmission, axle, steering, etc., specify type, such as 302 cubic inch, Automatic Transmission, Power Steering, etc.
E. Advise how shipment is to be made — Freight, Express, Air, Parcel Post.

EXPLANATION OF SYMBOL ★

★ Symbol indicates part is not supplied for service due to the following:

a. Part is superseded and replaced as indicated in the description column of the text catalog.
b. Part can be improvised as indicated in the description column of text catalog.
c. Due to its function there would be little or no demand.

NOTE — ALWAYS REFER TO THE DESCRIPTION COLUMN OF THE TEXT CATALOG FOR POSSIBLE SUBSTITUTION OR FOR MATERIAL SPECIFICATIONS AND DIMENSIONS WHICH MAY BE HELPFUL IN OBTAINING THE NON-SERVICED PART LOCALLY.
